Please note

An individual can fulfill more than one judging assignment. For example, 1 judge can fulfill both the speed and Presentation judging requirement for 3 to 5 video submissions. We will never assign the same judge to different roles on the same panel.

Certification requirements

All judges must be certified level 3 judges. This means you need to:

- Complete of the online certification or recertification courses
- Attend an in-person or live online judges training
- Complete mini continuing education courses as they become available

If you've previously attended a live training, you only need to complete the online re-certification courses to maintain your level 2 certification. All judges will need to complete a course related to judging a virtual tournament once it becomes available.

Senior athletes can be nominated as judges for events in which they are not competing as long as they are certified judges.
